 - Patient Insurance: ATTACH A COPY OF THE INSURANCE CARD SO WE CAN VERIFY BENEFITS
 - Please include the past 3-month medical records and lab work as well as any recent x-rays or MRI reports to relate to the patient's pain condition.
-

We are in network with most major insurance providers as well as offering an affordable cash rate program. We are; however, not in network with BCBS. Our private pay cash program includes most lab work, up to 6 urine drug screens/year and physician visits. The cost is \$250 for the initial visit and \$140 for monthly visits.

As a reminder, we are not accepting patients who are currently on benzodiazepine's; patients must be off for at least 30 days in order to test negative.

Not accepting patients using medical marijuana unless they are agreeable to stop.

We are currently not accepting Sooner care or Medicaid as primary insurance.

Please reach out to Sandy Kelly with any questions.
